ENGLISH

I'd like to have my teeth whitened.

How white can my teeth realistically get?

Whitening only works on natural teeth, not on crowns or fillings.

We take an impression and make custom trays for you.

Wear the trays for two hours a day for two weeks.

Some sensitivity during whitening is normal.

The result usually lasts one to two years.

Veneers are thin shells bonded to the front of the tooth.

Do you have to file the teeth down for veneers?

A small amount of enamel is removed, and it cannot be replaced.

Composite bonding can close that gap in one visit.

I don't like how my smile looks in photos.

We can show you a mock-up before anything is permanent.

Avoid red wine and coffee for the first two days.
