ENGLISH

This cavity needs a filling.

Would you like a white filling or a silver one?

White fillings match the colour of your tooth.

I'm going to remove the decay first.

You'll hear the drill but you shouldn't feel anything.

Rinse and spit, please.

Bite together — does it feel high?

It feels like I'm hitting that tooth first.

I'll adjust it so your bite feels even.

The tooth may be sensitive to cold for a week or two.

Don't eat until the numbness has gone.

How long will this filling last?

Your old filling is leaking and needs replacing.

The cavity is too big for a filling — it needs a crown.
